# Slayer Pro 4WD Short Course Nitro Race Truck

The new Traxxas Slayer Pro 4WD Short Course Race Truck takes realism, speed, and competition to the next level with 4-wheel drive, nitro-burning performance. Slayer brings the action and ferocity of Pro 4<sup>®</sup> Championship Off Road Racing™ right into your own back yard. Strap yourself in and get ready for intensity and realism that's unrivaled in the Nitro arena. This latest addition to Traxxas' stable of high-performance trucks is based on the 6-time national champion Revo chassis and suspension technology, complete with rocker-actuated inboard shocks, 3D Semi-Monocoque chassis, and high-revving TRX 3.3 engine with EZ-Start electric starting system. Slayer features new suspension arms that give the truck an authentic racing stance and the proper proportions of a true Pro 4WD short-course racer. A compact receiver box with integrated transponder mount, high-flow air filter, polished Resonator tuned pipe and GTR aluminum shocks are just a few of the features Slayer incorporates for maximum performance, reliability, and fun. No other R/C truck combines realistic looks, authentic handling, and Traxxas' legendary durability and convenience like the Ready-to-Race<sup>®</sup> Slayer.

## Slayer Pro 4WD Features:
